ST. PETERSBURG INTERNATIONAL ECONOMIC FORUM

18–21 June 2025, St. Petersburg

One of the biggest and most important business events in the world. The St. Petersburg International Economic Forum (SPIEF) has been held annually since 1997. Since 2006, it has been held under the auspices of the President of the Russian Federation, who also attends each event.

Over the past quarter of a century, SPIEF has become a leading global platform for representatives of the business community to meet and discuss the key economic issues facing Russia, emerging markets, and the world as a whole.

The global economy has been undergoing a period of turbulence due to the transformation of international economic unions, growing social inequality, and instability in relation to trade and political ties. In light of these factors, it has become particularly important to focus on prospects for sustainable economic development across the globe. SPIEF offers a shared space to build trust and present equal opportunities to all businesses throughout the world.

In 2024, the Forum was attended by more than 21,800 people from 139 countries. In total, 1,073 agreements were signed worth more than RUB 6.492 trillion, with coverage provided by 4,216 media representatives from Russia and around the world.

• Recommended dates for approving partner package with the Forum Organizing Committee: November 2024 – February 2025.

FUTURE TECHNOLOGIES FORUM

20-21 February 2025, Moscow

A discussion platform dedicated to the development of science-intensive industries in Russia. Launched in 2023, the Forum has since become a flagship event, where leading experts, scientists, business representatives, and government officials discuss cutting-edge scientific developments and product solutions.

The event serves as a catalyst for the development of science-intensive sectors in the economy. In addition, it aims to shine a spotlight on prospects for the implementation of scientific advancements, support the creation of new industries, and build a vision for the technological future of the country.

The 2025 edition of the Forum will be held under the theme New Materials and Chemistry, in line with a set of Russian presidential directives issued on 18 April 2024 (ref. no. Pr-755). The Forum will feature more than 30 panel discussions, scientific conferences, and business sessions focusing on the introduction of state-of-the-art technologies. There will also be a number of special exhibitions showcasing technological accomplishments.

The Forum will take place as part of a series of events marking the Decade of Science and Technology in Russia, which was announced in 2022 by decree of President of the Russian Federation Vladimir Putin. The Forum is organized by the Roscongress Foundation with the support of the Ministry of Digital Development, Communications and Mass Media of the Russian Federation; the Russian Academy of Sciences; and the Russian Quantum Center.

AFRICAN ENERGY WEEK

29 September – 3 October 2025, Cape Town, South Africa

African Energy Week is a key business platform for the continent's energy industry. In its relatively short period of existence, AEW has evolved into not only the largest gathering of energy players on the continent, but also a new, innovative platform on which to build the future of Africa's energy sector, and a place to formally close deals and build partnerships.

This year's AEW will again serve as a meeting place for African presidents, ministers, and politicians to meet with regional and foreign investors. It will combine an interactive multi-format exhibition with a business event that will bring together international and African energy players on one platform.

The AEW programme offers a dynamic palette of opportunities highlighting the key role of oil and gas in Africa's energy landscape. Participants will have the chance to gain a profound understanding of investment projects and to explore a range of high-value businesses and regulatory frameworks. A host of projects will take centre stage, from innovative renewable energy initiatives to strategic oil development projects, creating a foundation for discussion on approaches to sustainable development not only for the African continent, but the entire planet.

African Energy Week is organized by the African Energy Chamber, with the Roscongress Foundation as strategic partner.

• Recommended dates for approving partner package with the Forum Organizing Committee: April – August 2025.

RUSSIAN ENERGY WEEK

15-17 October 2025, Moscow

The Russian Energy Week International Forum (REW) is Russia's largest international platform to discuss development trends in the fuel and energy industry, identify key areas of development, and find optimal solutions to existing challenges.

Attendees include heads of state and government, representatives of major international energy companies, industry leaders, world-renowned experts, and journalists.

REW also hosts an exhibition of equipment and technological solutions for the fuel and energy sector. This offers companies a unique opportunity to showcase their innovative projects and share practical experience in working towards Russia's technological sovereignty in the sector.

The Forum is held with the support of the Ministry of Energy of the Russian Federation and the Moscow City Government.

- Recommended dates for approving partner package with the Forum Organizing Committee: March - August 2025.

IV YOUNG SCIENTISTS CONGRESS

YOUNG SCIENTISTS CONGRESS

26–28 November 2025, Sirius Federal Territory

The Young Scientists Congress is one of the key events of the Decade of Science and Technology.

The Congress brings together representatives of leading scientific schools from different regions of Russia, scientific and educational organizations, government bodies, industrial partners, prominent leaders in national science, and, most importantly, young scientists, winners of grant competitions, students, and schoolchildren.

The business programme of the Congress will include roundtables, sessions, and discussions aimed at improving the climate in the scientific community. Educational events will be organized across various areas of research. Congress participants will present initiatives in the field of science and technology, showcasing new opportunities for young people. Those who are in the early stages of planning their careers will have the chance to learn about modern scientific accomplishments and developments by Russian scientists.

The Young Scientists Congress is organized by the Ministry of Science and Higher Education of the Russian Federation, the Coordinating Council for Youth Affairs in Science and Education (part of the Russian Presidential Council for Science and Education), and the Roscongress Foundation. The Decade of Science and Technology is organized by the Ministry of Science and Higher Education of the Russian Federation.

VERONA EURASIAN
ECONOMIC FORUM

XVIII VERONA EURASIAN ECONOMIC FORUM

November 2025

This forum, which was previously held in Verona, moved closer to the centre of Eurasia for the 15th anniversary edition of the event. This was a reflection of the eastward shift taken by economic centres the world over. Today, the region has every chance to emerge as a new centre of economic growth, as progress is made towards greater integration and harnessing the potential of intergovernmental organizations.

The Forum focuses on the political prospects for partnership from the Atlantic to the Pacific and key issues related to cooperation across various areas. These include energy, finance, interregional initiatives, infrastructure projects, innovation in agriculture, and innovative technologies.

The event is attended by representatives of government bodies and the business community, political and public figures, diplomats, experts, and journalists from dozens of countries.

The Forum is organized by the non-profit association Conoscere Eurasia and the Roscongress Foundation.

- Recommended dates for approving partner package with the Forum Organizing Committee: August 2025.
